Attachments: Rubber in a Nutshell.docx

Hi Kelly. Plz see the note below. Something we'll need to put together.

Best,

jose

Subject: Tire Crumb Study

Steven Cook will be speaking for about 5 minutes at the Institute for Scrap Recycling Industries (ISRI) annual convention the week of April 8th and covering topics related to issues facing the recycling industry. www.isri.org. The tire crumb study is a hot topic for ISRI and their members so the specifically asked that he either mention it or be prepared to answer questions regarding the study. We are preparing talking points for Steven and it would be very helpful to have a succinct Q&A on why the federal study is unique and is providing needed information/differs from the recently completed studies on this topic as referenced in the attached "issue paper".
